## **Domination**

#### **Podium bonus**

- topboarder 70 pts
- second 34 points
- third 16 points

position bonus can't be shared : look at tie break

#### **Break**

If the winner of the game ends with three or more SCs more than the second, there is Break

• Break = +30

if no break are realised every other player get a +10%

### **Power**

1 point/centre

# **Participation**

• 1 point

### **TSS bonus**

At the end of the game, you count all the players who finished with at least 3 SCs. That number (minus 1), multiplied by 10%, is TSS ("Three-SCs-Survivors"). Each survived player (with at least one center owned at the end of the game) receives a bonus equal to his Modified Score multiplied by TSS.

For example, if 4 players end with 3 or more SCs, TSS is equal to 30% and each player gets his Unmodified Score increased by 30% Please do note that, since for TSS calculation you consider only players with 3 or more SCs, it's not important whether the other players have been eliminated or survived with 1 or 2 SCs – but those survived players get their TSS bonus, too.

## Solo

In case of a solo (18 SCs), the winner's bonus will be 170 points so his final score will (70 first + 30 Break+170 + (4\*18) +1) \* (TSS), while all the other players will get 1 point. I.E:18 centers with 4 players with 3 centers or more = 445,9
